

## SITC of Networking Infrastructure for CeX Webuy, Mumbai

### Networking Infrastructure Setup

#### Customer Situation

- CeX Webuy is a global technology platform for buying, selling and exchanging range of technology & entertainment products like cell phones, video games, computers, digital electronics, TVs , monitors and music CDs.
- They were looking for a technology partner who could supply, integrate & commission their Networking infrastructure in Mumbai.

#### Challenges

- Dealing with strict timelines for the delivery.
- Setting up of the Wireless Networking infrastructure for the customer.

#### Actions Taken

- Supported the client in designing of the Network & implementing the same.
- Work on project management and system integration in a timely manner to ensure readiness at site.
- Gave the customer a cost effective, ultra fast & reliable solution based on Ruckus Wireless.

#### Results and Benefits

- Successful installation & commissioning.
- Proper planning and execution for speedy and timely delivery.
- Customer can focus on their core areas of business and not worry about their networking needs.
- Commedia completed the commissioning of the network infrastructure.
