

SITC of Enterprise IT, Networking Infrastructure & Managed Services for Chromaflo Technologies, Mumbai

IT, Networking Infrastructure & Managed Services

Customer Situation

- Chromaflo Technologies, one of the leading independent global suppliers of colorant systems, chemical and pigment dispersions in the world were looking at a partner who could supply, integrate & commission their IT & Networking infrastructure for them.
- The scope of work involved handling complete telecom, IT and Networking areas at their office in Mumbai.

Challenges

- Dealing with multiple technologies for the customer like CISCO, Polycom, Avaya.
- Setting up of the complete IT & Networking infrastructure in a stipulated time frame.
- Ensuring seamless support services

Actions Taken

- Supported the client in designing of the Network & implementing the same.
- Work on project management and system integration in a timely manner to ensure readiness at site.
- Continuous and round the clock support in the day to day IT & Networking support needs.

Results and Benefits

- Successful installation & commissioning.
- Proper planning and execution for speedy and timely delivery.
- Customer can focus on their core areas of business and not worry about the IT & Networking needs.
- Commedia provides complete support in managing the IT infrastructure.
