

Wifi, Networking & Office Automation, Le Eco - Bangalore, Gurugram & Mumbai, India

Supply, Installation, Testing and Commissioning

Customer Situation

- Leading Chinese conglomerate looking for a IT solutions which included Wired and wireless network connectivity and office automation across their 3 offices in India.
- Commedia was involved in the Supply, Installation, Integration, testing and commissioning of this project.

Challenges

- Customer had a strict timeline as they were setting up their offices in India.
- Non availability of down time at some locations.
- Solution to be cost effective also & quality standards to be met.
- Dealing with multiple OEMs and Multi site simultaneous rollout across India.

Actions Taken

- Commedia had to choose the solution/product keeping in mind the customer preferences, quality standard.
- Commedia established the network with Full Mesh topology and high availability infrastructure.
- Commedia offered the CISCO based routers, switchers, firewall, wireless controllers, access points, Avaya based VOIP solutions platform, Polycom's AV conferencing system.
- Commedia team had to ensure the down time was taken during the non working hours at some sites as business could not be hampered.
- Completed the installation within the stipulated timeframe

Results and Benefits

- Successful deployment of the complete network with best in class products.
- Easy and seamless project rollout without any hit to business within the timeline promised.
